DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE,

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

Dr J Collis Browne's Chlorodyne,

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Whooping Cough, Hysteria, &c

EXTRACTS FROM MEDICAL OPINIONS

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet, Dec 31, 1864

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed."

Dr Lowe, Medical Missionary in India, reports (Dec. 1865) that in nearly every case of Cholera in which Dr J Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Parmaceutical Journal, Aug 1, 1869, which states that Dr J Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government stamp. Overwhelming medical testimony accompanies each bottle.

FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA or INDIGESTION, BILIOUS REMITTENT and INTERMITTENT FEVERS, DISEASES of the BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

DR. CHING FUN—A CARD—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co For 24 years I suffered with neuralgia on the brain, which baffled the skill of three firstclass American physicians Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief Respectfully,

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energies are increased

Determination of Blood to the Head.

THE BRITISH COLONIST.

Sunday Morning, June 5, 1870.

A Nice International Question.

The refusal on the part of the United States authorities to allow passage through Sault Ste Marie Canal to British vessels carrying supplies for the Red River expedition, raises a very nice International question. The Sault Ste Marie Canal, as most of our readers will know, was constructed on the American side of the river of that name, in order that vessels might be enabled to pass to and fro between the two great lakes, Huron and Superior—the natural channel being obstructed by the Falls of Ste Marie. It appears that the subject of permitting vessels employed in connection with the Red River expedition to pass through the canal was the occasion of a good deal of discussion in the Washington Cabinet. That Cabinet was unanimous in refusing permission to troops or arms to pass, and it was thought Great Britain could take no exception to that decision. But no little diversity of opinion existed upon the subject of permitting ordinary supplies, such as flour, beef and other species of food for the sustenance of troops to pass through the canal. The question was, could the American Government fairly interfere? There was no want of disposition; but merely a doubt as to right On the one hand, it was held that the British had a right to send articles of ordinary traffic, which were not *per se* warlike materials, by the ordinary routes and channels. On the other hand, it was argued that the purpose for which such articles would be sent would in itself bring them within the category of warlike materials. A still finer point was raised, and found advocates on both sides. Should these transport vessels not be allowed to pass laden with such supplies, could the empty boats be prevented from going through the canal, the supplies being first landed on British soil, at a point below, and carted past the canal on the British side, with a view to embarkation above? It was claimed, on one side, that these vessels, being intended for a warlike object, should not be permitted to pass through the canal, even empty! While, however, these theories were the subject of discussion at Washington, the requisite supplies were being quietly sent through the sacred canal, apparently in the ordinary way of commerce, without attracting inconvenient remark and without any impertinent questions being asked as to whether innocent articles of food might not, at some period or point be suddenly metamorphosed into warlike material. Thus the Canadians got the start of their usually 'cute and clever' neighbors, thereby happily avoiding a critical International question and no inconsiderable cartage-money. But the question may not be so readily settled, in so far as the United States are concerned. The will, the decision to prevent the passage of ordinary articles of food, a determination to distort and strain international law, in order, if possible, to interrupt a neighboring country in its efforts to subdue a small and miserable attempt to play at revolution within its own dominions, are circumstances which will be placed on record, and may not unlikely come up at some very inconvenient moment against the people who have so far forgotten those amenities which are commonly maintained in the intercourse of civilized nations. The Americans should have remembered that two can play at that game, and, moreover, that Canada holds three cards for their one. Suppose every time an Indian difficulty occurs in any State or Territory of the Union, Canada should play that contemptible game back upon the United States, taking the absurd position that produce passing through the Dominion canals, as it continually does, might subsequently become materials of war in the sense of being employed for the sustenance of troops engaged in subduing recalcitrant Indians, what would the Americans say to that? They might bluster; but they certainly would have no right to complain at being treated precisely as they thought to treat the Canadians. These people ought to have remembered that, during their own great rebellion their vessels continued to enjoy the uninterrupted use of Canadian canals and rivers, and no eager American suggested the slightest doubt as to the propriety of the practice; certainly no Canadian ever dreamed of raising an objection. Were there any questions of neutrality involved the case would be altogether different. But to attempt the stoppage of the canal simply to annoy a neighboring country taking the most ordinary and peaceful measures to preserve order within its own borders is a piece of conduct scarcely befitting a great and free people.

Montreal Steamship Company.

The wonderful success of the above company is deserving of remark. The fleet on the principal line between Montreal and Liverpool comprises ten first class iron steam-ships. The fortnightly line between Montreal and Glasgow consists of half that number. The Montreal and Liverpool freight line consists of three. The line plying between Liverpool and ports on the European continent as a feeder to the main line, consists of two. The original cost of these ships was from $300,000 to $500,000 apiece. The company have, besides these, a fleet of eight iron and sixteen wooden sailing ships, built at an aggregate cost of over a million of dollars. They have tenders, barges and lighters that cost $100,000. They have workshops and supply-stores at Liverpool, in which from 400 to 500 men are employed, that cost one million of dollars, and they have wharves and offices that cost $250,000 more. Their employees of all kinds number over 3000 men. The capital of the Company is ten millions of dollars. The original projectors of this great concern were Messrs Hugh Allan and Andrew Allan of Montreal, Mr Bryce Allan of Liverpool, and Messrs James Allan and Alexander Allan of Glasgow—all brothers from the north of the Tweed, and all, as may well be supposed, men of unusual ability and energy. Beyond these five brothers there are very few others in the company. Of this enormous enterprise Hugh Allan of Montreal is and ever has been the life and soul. The originator of the concern, it was his indomitable skill and courage that carried it successfully through difficulties before which most men would have succumbed. He owns one-third of the entire stock, and it is by his skilful hand that all its affairs are directed. Nor is he wholly absorbed in it, but finds time to run a Bank with six millions of capital, to be the active, *working* President of the Dominion Telegraph Company, the Montreal Warehousing Corporation, a great Woolen Manufacturing Company, an Insurance Company, an Inland Navigation Company—and nobody knows what else. In all of these he is no cypher, no mere figurehead, but the animating spirit and active power of the whole. And yet, with all these duties and responsibilities, Hugh Allan is a consistent and working official member of St Andrew's Church, Montreal.

The Libel on the Prince of Wales.—The following are the affidavits in the case before the Court of Queens Bench, in reference to the libel on the Prince and the Earl and Countess of Sefton—'Affidavit of Albert Edward, Prince of Wales, of Marlborough House, Middlesex, sworn the 14th of April, 1870, states as follows:—1. I have read the paragraph in the *Sheffield Daily Telegraph*. 2, I was never guilty of the slightest impropriety with the said Countess of Sefton and there is not the slightest foundation or pretext for the statement that I am likely to be mentioned in the Divorce Court as a co-respondent in the case by the Earl of Sefton against the Countess 3. I know nothing of, and I cannot conceive of anything which could have suggested or given rise to such a statement.' The joint affidavit of the Earl and Countess of Sefton stated:—'1, We have read the paragraph in the *Sheffield Daily Telegraph*. 2. We were married on the 18th of July, 1866. 3. We have lived together from the date of our marriage down to the present time in perfect harmony and affection and we have three children. 4. There is not the slightest shadow of foundation or pretext for the statement above set forth, as contained in the *Sheffield Telegraph*. 5. And I the said Earl, for myself, say I know of nothing, and I cannot conceive of anything, which could have suggested or given rise to such a statement. 6, And I, the said Countess for myself say that I know of nothing, and cannot conceive of anything which could have suggested or given rise to such a statement. 7. There has never been the slightest impropriety of any kind between his Royal Highness the Prince of Wales and myself. And we, the said Earl and Countess, say that we cannot look upon the said statement as anything but a wicked falsehood and calumny.'

Belligerent Journalists.—Tilton of the *Independent*, having made a fierce personal attack on Hugh J Hastings, editor of the New York *Commercial Advertiser*, the latter retorts in these honied notes:

> We are quite willing to have our lif reviewed. We invite it. One thingo: if the bran-bread and free love editor of the *Tribune* and the set who surround him, scandalizing the cause of God and man, could have raked up anything damaging to our character they would have given it to the readers of that paper long ago. Of the course of attack of the individuals who play the pious dodge in the *Independent*, we have only to say it is worthy of the hypocrites who cant about ungodliness and the low standard of journalism. As we never felt ourselves called upon to vindicate our character before a court of justice, we shall resort to our usual custom in such cases by way of vindication. We therefore inform the editor of the *Independent* that a swe have kicked nothing mean for a long time, he will be very likely to be introduced to our calfskin the first time we meet him. It is the only way to treat such fellows. We shan't hurt him, but merely kick this Uriah Heep of the press. And if we ever so far forget what belongs to manhood as to do anything so mean as this fellow Tilton is capable of doing, we shall expect to be hoisted.

A political demonstration of a peculiar character took place recently at Lyons. A quadrille was composed to the music of the 'Marseillaise,' the 'Cair' and other revolutionary airs, and was danced by an enthusiastic crowd in one of the grand public saloons of the city. At least 5,000 persons were present and they joined in the chorus of each air with tremendous enthusiasm.

The Laborer.

Stand up—erect! Thou hast the form
And likeness of thy God—who more?
A soul as dauntless 'mid the storm
Of daily life, a heart as warm
And pure, as breast e'er wore.

What then? Thou art as true a man
As moves the human mass along;
As much a part of the great plan
That with Creation's dawn began,
As any of the throng.

Who is thine enemy? The high
In station, or in wealth the chief?
The great, who coldly pass thee by,
With proud step and averted eye?
Nay! nurse not such belief.

If true unto thyself thou wast,
What were the proud one's scorn to thee?
A feather which thou mightest cast
Aside, as idly as the blast
The light leaf from the tree.

No; uncurb'd passions, low desires,
Absence of noble self respect,
Death, in the breast's consuming fires,
To that high nature which aspires
Forever, till thus check'd.

These are thine enemies—the worst;
They chain thee to thy lowly lot—
Thy labor and thy life accurs'd.
Oh, stand erect! and from them burst
And longer suffer not.

Thou art thyself thine enemy;
The great! what better they than thou?
As theirs, is not thy will as free?
Has God with equal favors thee
Neglected to endow?

True, wealth thou hast not—'tis but dust;
Nor place—uncertain as the wind!
But that thou has which, with thy crust
And water, may despise the lust
Of both—a noble mind.

With this, and passions under ban,
True faith, and holy trust in God,
Thou art the peer of any man.
Look up, then—that thy little span
Of life may be well trod!

Keshud Caunder, sr, the head of what is called in India the 'Church of the One God,' has arrived in London, where he intends to explain in public the aims and principles of his sect. The Monotheists, whom he represents, were forty years ago a small body at Calcutta, but are now counted bytens of thousands.

CLEARED

June 4—None.

MARRIED.

In this city, on the 2d inst, by the Rev J B Cave, Coote Mulloy Chambers, Esq, to Elizabeth, second daughter of Alexander Calder, Esq, of Victoria, B.C.

From the Mainland.

The Steamer Enterprise, Capt Swanson, with 15 passengers and Barnard's Cariboo Express, arrived from New Westminster last evening at 5 o'clock. A passenger from William creek on the 23rd ult., reports snow on the road between Van Winkle and the creek. Below Van Winkle the road was in good condition. The farmers were putting in heavy crops and were confident of a productive season. An express from Peace River was expected to arrive at Quesnelle on the 7th inst with important news. Two Omineca letters in the *Sentinel* give a rather discouraging account of Vitalle creek, one company having bottomed their shaft at 32 feet and found nothing. Prospecting on other creeks would commence so soon as the snow had disappeared. On William creek, as late as the 23rd of May, the weather was quite cold and the supply of water consequently limited. The Foster Campbell co, one pick working, washed up 33 oz for the week. The St George claim, with one cradle going, rocked out 18 ounces for the week. Preparations are being make to work this claim on an extensive scale during the summer. Nearly all the companies on the creek below the canyon are laying over until the freshet goes off. On Stout gulch the Tuffvale co, with two picks working, washed up 65½ oz for the past week and 33 oz on Wednesday last. The Mucho Oro, Bona Fide and Jenkins co's have not got fairly started for the season. On Conk in gulch the Felix co got 25 oz for the week and the Indian Queen co took out wages. On French creek the Cosmopolitan co commenced washing last week and got about expenses, with prospects for good pay in the deep channel. On Lowhee creek the Victoria co have put up a large shaft-house and machinery. The Brown co are preparing for work. The Kelly co expect to do well this season. The Black Bull co are pegging away at their tunnel. The Calaveras have bottomed a shaft 74 feet deep and have made a splendid job of it. A great deal of work will be done on Lowhee during the season. On Valley creek the Barker No 2 are putting up a wheel over a shaft 300 feet up the hill from the Prairie Flower ditch. Prospects from 10 cents to 20 cents have been found in the gravel. On Lightning creek the Lightning co took out 304¾ oz last week from a piece of ground measuring 5 feet by 20 On Beggs gulch the Welsh and Skym co's made wages last week, The other companies are prospecting.

Unpleasant Encounter.—On Monday evening last, after dark, a young girl started to walk from her father's house near Cedar Hill to a neighboring farm-house. The trail crosses a small stream of water, the banks of which are thickly clothed with willow bushes. She reached the brook and was about to cross when she was startled by a deep growl close at hand and looking in the direction—not three feet off—saw a great black wolf, scanning her with hungry eyes. The girl, of course, fled affrighted from the spot, but with that strange, unaccountable inconsistency which is sometimes developed in instances of excessive fright, stopped a few feet off till she had cast off her shoes and stockings, with the idea of running faster without them! His wolfship did not follow and the girl reached home more dead than alive from fear. Perhaps the wolf was like Paddy who, as the story goes, was sent in a boat to deliver a letter to the captain of a ship which was running up the river Lea from Cove to Cork. He was gaining on the ship when he observed that she shortened sail preparatory to anchoring, so he gave up the pursuit, remarking, 'Och, begorra, there's no use in folowing any longer since she's commenced to sthrip to it!'

The Canada Land Company.—This old land monopoly, which inflicted no little injury upon some districts in Upper Canada, appears to have been highly profitable to its shareholders. It appears from the statement of its President, Mr R Gillespie, at the half-yearly meeting held at London in March last that the average price obtained last year for land sold and leased was five shillings and five pence an acre higher than that of 1868—no bad evidence of the prosperity of that part of the Dominion The £27 shares of the company are worth £80

Stronger than a Lord.—In the House of Commons, during the fourth night's debate upon the Irish Land Bill, Mr Gladstone said: 'Last night an honorable friend of mine—the member for Merthyr Tydvile—as he was well entitled, excited the curiosity of the House by producing to us a proverb in Welsh. and afterwards he conveyed to us the English of it. I cannot recite the Welsh, but the English was this—a nation is stronger than a lord. I, sir, admit it. I admit more—a nation is stronger than a Parliament—but I will add yet another saying—there is something else stronger than a nation, and that something is justice.'

Alexandre's Gloves in New and Beautiful Colors.—The French Perfect Corset from the most celebrated maker in Paris. These corsets, from the scientific principle on which they are cut, give universal satisfaction. Lace Shawls and Half-Shawls and the new Lace Mantle. Some entirely new makes of Dress Meterials. Millinery, a really beautiful assortment Ribbons, Flowers, Feathers, Muslins, Trimmings, &c, &c. Riding Habits and Jackets, made by a celebrated London Tailor, and a great variety of other goods, rendering ours as complete a stock of Drapery, &c, as would be seen in Regent street or Broadway. — London House.

Graceful Concession.—The new regulations for Common Schools, the promulgation of which we noticed a week ago, and the objectionable features of which formed the subject of a couple of leading articles in this journal, have been withdrawn. We must be permitted to congratulate the friends of the cause of national education upon this result, and at the same time compliment the Inspector General upon his having so promptly and gracefully bowed to public opinion.

From the East Coast.—The steamer Emma, Capt Ettershank, arrived from the East Coast last evening bringing 26 passengers, amongst whom were Lieuts Fitzgerald and Ramsbotham, R N, Paymaster Tweedie, R N, and Rev Mr Alexander, Chaplain of H M S Zealous. There were no coal vessels loading at Nanaimo. The schooner Dreadnought was expected from San Francisco to load with stone at the Newcastle quarry.

JOUVIN'S KID GLOVES.—These celebrated Gloves, perfect in their shape and magical in their fit, *the favorite Glove of London, Paris and New York*, the Glove *par excellence* of the world, can be obtained at Victoria House, Government street, in all colors and sizes, both for ladies and gentlemen, the proprietors having just imported by Express a large assortment comprising all the newest tints.—W. Denny, Manager.

The Land 'Registry Ordinance, 1870,' a most objectionable measure, has received the Governor's assent, and E Graham Alston Esq, has been appointed Registrar-General for the Colony.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Canada.

Ottawa, June 4—The Delegates from British Columbia arrived yesterday.

Toronto, June 3—A dispatch from St Cloud says Riel is dissatified with the Manitoba bill because it does not provide for general amnesty. He intends to resist the Red River expedition, and has 200 men at Fort Garry and 800 on the Prairie. Reil is said to be robbing the mails to procure funds previous to leaving for the United States.

Eastern States.

Washington, June 3—The Red Cloud, Spotted Tail and Delegations had an interview with the Internal Secretary and Commissioner Parker to-day. In the Senate, memorals on the subject of the massacre in Romania was referred to the Foreign Committee. Cox's amendment for reducing the income tax to 3 per cent was adopted by 114 to 77. Hale's amendment making exemption 2000 was adopted by 138 to 52, Judd's amendment to confine the tax to invested capital, and Potter's amendment that the income tax should cease as the total register amendment adopted limited all awards for house rent to $500. Several minor amendments were adopted, Beck's amendment to tax U S Bonds was rejected.

New York, June 3—The *Herald* publishes the following report of the House Committee on Foreign Affairs on Cuba. The report is very long and refers to a number of petitions in behalf of Cuba, signed by 55,000 people of the United States. Figures show an increase in the Cuban force from the time of the declaration of independence, October 15, to the present, when they have 60.000 men armed and 20,000 enrolled and drilled, but not armed. They claim that with a supply of arms they can put in the field 200.000 men. The action of the Cubans in the field was reviewed at some length. The report details official information as to events in Cuba, received by our Government, as well as that of Spain, and declares that the proximity of Cuba gives these events an importance not fully appreciated by another State from the wellknown fact that Spain seeks to reinforce her navy and war supplies. When the Cubans appeal to our people for sympathy and support the Cuban question becomes an American question. The report concludes as follows: 'In view of all these facts we consider it is no longer ci il commotion, as it has hitherto been regarded by the United States, nor a mere domestic question, as represented by the Spanish Government; but protracted civil war, and our first duty is the trial of it as such and in accordance with the laws of nations to declare and maintain with regard to the parties engaged therein a strict and impartial neutrality.' The record, it says, would justify Government in recognising the independence of Cuba, or declaring war, but we propose only to provide for emergencies to the extent required but no further. The report was completed last April and adopted by a majority resolution of the committee, but no opportunity was afforded to bring it, with an accompanying resolution, before the House for final action. The report makes no recommendation regarding murdered Americans, although it denounces in strong terms the cruelty and cowardice which caused their death.

Washington, June 3—The receipts of internal revenue to-day were $2,000,000.

Schenck's new tariff bill, which he proposes to offer as an amendment to the general bill, taxes tea 24c, coffee 4c, sugars raw 2c, clarified 2⅔c, and refined 4c.

Chicago, June 4—The *Times'* Washington special says the House Reconstruction Committee agreed to the amendments of the Georgia Bill, which sought to require the election of a new State Legislature for the coming Fall.

An analysis of the vote in the House on the proposition to abolish the income tax shows 30 Republicans and 28 Democrats voted for; 109 Republicans and 17 Democrats, against.

Becks amendment, taxing Government bonds, excited a very sharp debate, principally between Gen Butler, Beck and Eldridge in favor, Schenck against. The latter denounced the proposition as flat repudiation. Twenty-nine Republicans, among whom was Sargent, voted in the affirmative.

New York, June 4—All the Washington specials this morning agree in asserting that the new Funding Bill matured by the Ways and Means Committee is essentially distasteful to Secretary Boutwell and members generally, and express the opinion that there will be no legislation on finances this session.

Oregon.

Portland, June 4—The sailing of the steamer California is postponed till Monday, June 6th.

California.

San Francisco, June 4—The steamship Active sailed at 10½ o'clock this morning.

The Greek Brigands.

[From the London Times, April 25.]

DETAILS OF THE CAPTURE AND MURDER OF ENGLISH TRAVELERS—POLITICAL ASPECT OF THE AFFAIR.

The intelligence of this terrible catastrophe reaches us simultaneously with full details of the incidents which accompanied the capture of the party. They accurately correspond with the conception of the event which a knowledge of previous outrages of the same character had enabled us to form. On Monday, the 11th—this day fortnight—the travelers set off in the early morning from Athens to Marathon. They were eight in all, exclusive of a guide, four *gendarmes* and drivers—viz, Lord and Lady Muncaster, Mr and Mrs Lloyd and their little daughter, Mr F Vyner, late M P for Ripon, Mr Herbert, one of the Secretaries of our Legation at Athens, and the Secretary of the Italian Legation. Lord and Lady Muncaster and Mr Vyner were traveling together in the East. Mr Edward Lloyd is a member of the English bar, who has been at Athens for some little time past in connection, we believe, with the affairs of the Piræus Railway, and he was joined by his wife and child at the beginning of the year. It may be remembered that Mr Vyner was one of the hunting party who escaped the sad accident on the Ure, when Sir Charles Slingsby and several others were drowned, last year; and it is a very strange coincidence that another, Mr Edward Lloyd, was then in the boat and was saved with him. The Secretaries of the Legations were of course stationed at Athens in the exercise of their duty. It is declared at Athens that the Minister of War at first refused to grant them a military escort on the ground that brigandage had ceased to exist, but he afterwards so far relented as to order four *gendarmes* to accompany the party. If we cannot at once accept a statement of this kind as absolutely authentic—and it is not, indeed, supported by the intelligence derived from Lord Muncaster's letters—there are especial reasons why its accuracy should be thoroughly examined. A belief was certainly entertained at Athens throughout the winter that an organized band of brigands infested the Marathon road, and our correspondent at Athens went so far as to name the chief of the band—Spanos—in a letter published by us on the 23rd of October last. The Athenians, did not scruple to attribute complicity in the designs of Capt Spanos to persons of high position. It is remarkable, too, that as soon as the capture was reported at Athens it was positively declared to be part of a political movement designed to embarrass the Government and produce a change of Ministry. The tragical issue of the capture dispels this suggestion, but the fact that it was started and accredited remains. To turn, however, to the travelers. They set out, as we have said, early in the morning and were permitted to cross the mountains and survey the famous field of battle in peace, but while traversing a narrow defile on their return, they were suddenly attacked by about thirty heavily-armed brigands. One of the *gendarmes* was killed on the spot and another received a wound of which he died the next morning. The party being thus overpowered, the ladies and the child with the two remaining *gendarmes*, were after a while liberated and sent to Athens. The guide remained with the prisoners and served as interpreter between them and the brigands. After a day spent among the mountains, the terms of ransom were arranged, and one of the prisoners, Lord Muncaster, was dispatched to Athens to negotiate the payment. Complete amnesty and 1 000 000 drachmas had been demanded, but there is an unavoidable indefiniteness in the report of the sum. Greece has a forced paper currency and the only silver coin found in the kingdom are a few Austrian zwanzigers. A sum of £25 000 in English gold was finally agreed upon, and a banker was found ready to advance it. The transaction thus told does not differ in kind from many others, and the negotiation which followed between the brigands, the friends of the captives, the Greek Government and the foreign Ministers, in which Lord Muncaster passed to and fro as a messenger on parole, was in accordance with many precedents. The unhappy truth would seem to be that had the travelers been entirely undistinguished they would have been released after a certain interval upon the payment of a moderate ransom; but their rank proved their ruin. The brigands learned the value of their prize, and insisted upon the full sum, besides a pardon. On the other hand, the Greek Government felt they were bound to make especial efforts to rescue a party containing two members of foreign Legations. A troop of cavalry and some infantry were dispatched on the night of the capture, but were subsequently recalled, from fear that the pursuit might produce the very catastrophe that has since occurred. But the humiliation of having to negotiate with the brigands soon became insupportable. No nation exceeds the Greek in the passion, or perhaps we may say in the vanity, of patriotism. Successive Governments had borne without reproach the ignominy of allowing brigands to haggle over the ransom of their captives; but this transaction was one which drew upon Greece the attention of the whole world. The troops were again dispatched in pursuit, and the brigands; having quitted their strong position in the mountains for the plain by the sea, found themselves unable to keep together. The end has been told. The prisoners were all murdered.

PROCEEDINGS IN PARLIAMENT.

The House of Commons met April 26th, after the Easter recess. Mr Otway, in answer to a question from Mr Monk, confirmed officially the intelligence of the murder by the Greek brigands of their prisoners. He stated also that our Minister at Athens had been unremitting in his exertions to avert their fate; that there had been no difficulty about providing the ransom demanded; and that he had pressed the Greek Government to grant the amnesty which the brigands demanded. Unfortunately, this concession not being made, and the brigands being attacked by the Greek troops, they put Mr Herbert and the Italian Secretary of Legation to death at once. Mr Vyner and Mr Lloyd they carried off, but only to share the same fate shortly afterward. Mr Vyner, he added, had been carried as far as Thebes before he was murdered. The Foreign Office was anxiously waiting for details of the affair, and in the meantime he had already laid on the table the communications which had passed between Lord Clarendon and our Minister at Athens in regard to it.

A young man who had spent a little of his time and a good deal of his father's money in fitting himself for the bar, was asked after his examination how he got on. "Oh, well," said he, "I answered one question right." "Ah indeed!" said the old gentleman, with a look of satisfaction, "and what was that?" "They asked me what a *qui tam* action was." "That was a hard one And you answered it correctly did you?" "Yes; I told them I did not know."

Maravilla Cocoa—*For Breakfast*—The *Globe* says—"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supercedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London. 1awSat. 1yr

Parties requiring anything in my line will now have an opportunity of procuring great bargains.—W. Geo. Jamieson, adjoining the Colonial Hotel. *

Hair Vigor.—In common with many others we have felt a lively interest in the investigations which Dr. Ayer has been making to provide a remedy. His researches are said to have been much more thorough and exhaustive than ever made before. The result is now before us under the name of Ayer's Hair Vigor. We have given it a trial, and with full satisfaction it equals our most favorable anticipations. Our gray hairs have disappeared, or resumed their original color; and a visible crop of soft, silken hair has started on a part of the scalp which was entirely bald. [Democrat, Abingdon, Va. *

Fell's Coffee, superior to any other brand manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. *

Buy It and Try It.—Russell's celebrated Coffee. The best on the Coast. Warranted a pure and healthful beverage. *

When all employment becomes irksome and the mind incapable of continued application to any subject through weariness and exhaustion of the body, than some healthful tonic, acting gently but surely upon the liver and stomach, and gradually increasing the force of the circulation, and of the digestive system will be found to remove the difficulty. Such a medicine is Dr. Walker's Vegetable Vinegar Bitters, which in purifying the blood renovates the system giving it renewed vitality and force as of youth again. 19*

Breakfast—Epps's Cocoa,—Grateful and Comforting—the very agreeable character of this preparation has rendered it a general favorite. The Civil Service Gazette.—"The singular success with which Mr Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., 1lb. tin-lined packets, labled—James Epps & Co., Homœopathic Chemists London, England. se18 tu&sa

French Medicines,
PREPARED BY
GRIMAULT & CO.
Chemists to H. I. H. Prince Napoleon
PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of MESSRS. GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimoles, itchings,—It is the best remedy against the first stage of consumption, and it is the most powerful depurative known.

DOCTOR LERAS'
(Doctor of Medicine.]

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing iron and Phosphorous, which are the elements of the blood. It cures chlorosis, pains in the stomach, difficult digestions, dismenorrhea, anæmia, general debility and poorness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation.

Therefore to avoid any substitution, please to require on the bottle the signature; Grimault and Co.

NERVOUS HEADACHE and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production t sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa,

Digestive Powders, Pills & Elexir of

PEPSINE.

Of certain effect against nausea, pituite, heart-burn, gastritis, gastralgia, children's diarrhœa, inflamation of the mucous coats of the stomach and bowels, vomiting during pregnancy, jaundice, etc.

NO MORE COPABIA OR CUBEBS.

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other Medicines have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR. BURIN DU BUISSON'S DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most reputed medical men in France, in cases of derangements of the digestive functions, such as gastritis, gastralgia, long and laborious digestions, wind in the stomach and bowels, emancipation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Paste OF SEA PINE SAP.

These two preparations are invaluable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, colds, catarrahs, influenza, hooping cough, bronchitis, asthma, and also for the different affections of the urinary organs

FERRUGINOUS SYRUP. OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful digestions and impoverished blood; it is recognized as the best and most agreeable remedy.

ASTHMA. ASTHMA. ASTHMA.

INDIAN CIGARETTES
Prepared with the Essence of Canabis indica

Wonderful results have been obtained from the use of these cigarettes, by persons suffering from Asthma and other complaints of the respiratory organs.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

THIS wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

[To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if the Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a torough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,
Bad Breasts,
Burns,
Bunions
Bite of Moschetos and Sand Flies,
Coco-bay,
Chiego-foot,
Chilblains,
